

Advisory to Shipping No. A-13-2022

April 1, 2022

TO : All Shipping Agents, Owners, and Operators

SUBJECT : Postponement of the 2nd Draft Reduction in the Neopanamax Locks

Precipitation has continued to fall in the Canal watershed during the past weeks, allowing the Panama Canal Authority (ACP) to postpone once again the draft reduction in the Neopanamax locks announced in Advisory to Shipping A-10-2022.

Therefore, the maximum authorized draft for the Neopanamax locks will remain at **15.09 m (49.5 ft.)** TFW, until further notice.

The ACP continues to monitor the level of Gatun Lake in order to announce future draft adjustments in a timely manner.
