

Panama Canal Authority
Vice Presidency for Operations

Advisory To Shipping No. A-19-2025

July 02, 2025

TO: All Shipping Agents, Owners, and Operators
SUBJECT: Additional segments to the Maritime Services Estimation Calculator

The Panama Canal is pleased to announce the addition of a new category for neopanamax container vessels and the inclusion of the local maritime cluster in the maritime services estimation calculator which is part of our renewed Maritime Services Tariffs section on Panama Canal's website, <https://pancanal.com/en/maritime-tariffs/>

This calculator is designed to provide a simple estimate of maritime services costs. It requires minimal input and uses a representative vessel based on size category and market segment. However, the resulting estimate should not be considered official and does not replace the VUMPA calculator, which offers a more detailed and accurate assessment of the Panama Canal's maritime services and tolls.
